

EMERALD
ASSET MANAGEMENT, INC.

<http://www.teamemerald.com/>

1703 Oregon Pike
Lancaster, PA 17601
717-396-1116

Emerald is an institutional asset management firm, focusing on small and mid cap equities. They currently manage \$1.6 billion and their clients include the State of Pennsylvania, Pennsylvania State Teachers Retirement Fund, the City of New York, as well as Eastman Kodak. Since the inception of the firm in 1992, they have hired interns from local colleges and universities to aid in their research process. Each intern is initially brought on for a one semester **paid** internship and may be asked to stay on for additionally semesters based on performance and availability. The primary duties of their interns are to aid the research staff in fundamental research and analysis of small and mid cap companies. Many of their interns have gone on to work on both Wall Street and inside large corporations.

They are looking for a student interested in a Fall 2010 opportunity – they typically consider juniors and seniors but would consider a sophomore at the top of their class. The background of their interns includes a concentration in Accounting, Finance or Economics, as those areas are essential to the research they perform.

If you are interested in applying for this internship, please email your cover letter and resume to Shari Kain (kains@etown.edu) at your earliest opportunity. Everything will then be sent to Emerald for their review. They will contact you directly for an interview.
