

SUMMER SALES AND MARKETING DEPARTMENT INTERNSHIP

The World's Carbon & Graphite Source for 117 Years

About the company: For more than a century, Asbury Carbons has supplied quality *carbon and graphite* products for use in a wide range of industrial applications around the globe, including friction materials, lubricants, fuel cells, cast metals, drilling, paints, coatings, and backfill.

Asbury Carbons remains a major supplier of *natural graphite, synthetic graphite*, related *carbon products*, and a variety of other raw *materials*. By focusing on meeting customers diverse needs, they continue to maintain their position as the world's supplier of choice for refined graphite and other carbons. Their extensive research and development work creates new products to meet the ever-changing needs of customers, continuing a long history of collaboration, growth, and diversification.

Location of Internship [6 miles off Interstate 78 at exit 7 in New Jersey (Lehigh Valley)]:

Asbury Graphite Mills, Inc.
P.O. Box 144
