

**Jean Fullerton, P.E.**

*Director of Engineering Programs*

Department of Physics and Engineering  
Elizabethtown College  
Elizabethtown, PA 17022  
(717)-361-1434  
email: [fullertonj@etown.edu](mailto:fullertonj@etown.edu)

Office: Esbenshade Room 164-A

*Professor Fullerton received her undergraduate degree in Mechanical Engineering from the University of Pittsburgh's Johnstown Campus. She later earned Master's Degrees in Business Administration (Shippensburg State College) and Environmental Engineering (PSU). She also obtained her Professional Registration as a Mechanical Engineer in the State of Pennsylvania.*

*"My engineering experiences have covered a wide spectrum from Corporate to Plant engineering to Facility Management and finally tied it all together as a Project Manager at a full service Engineering Consulting firm.*

*My teaching focus is to give my students as many "real world" problems and experiences as possible. I plan to actively support the Extern and Intern programs already in place at Etown. Having Internship opportunities as an undergraduate really added to my educational experience and I'd like to expand these opportunities for our students.*

*I've been asked why I've left the "real world" of engineering for a college teaching position. I have to admit that I think engineering is the best profession in the world and I will miss the excitement of completing complicated projects. However, I'm at a point in my career where I want to give back to my community and profession. Teaching allows me to do both. It doesn't get better than that!"*
