

DESCRIPTIVES

This is one of the simplest of all SPSS commands. You can request basic descriptive statistics (N, min, max, mean, standard deviation) for a list of variables, which will be provided in a single table.

```
desc vars = nc account .
```

Descriptives

Descriptive Statistics

	N	Minimum	Maximum	Mean	Std. Deviation
Need for Cognition	106	1.500	4.833	3.67706	.57781
Social accountability	106	0	1	.52	.50
Valid N (listwise)	106
