email: wunderjt@etown.edu

Office: Nicarry Room 244

Dr. Wunderlich is an Associate Professor of Computer Science and Computer Engineering. Previously, he worked for Purdue University as an assistant professor and for IBM as a researcher and hardware development engineer. He received his Ph.D. in Electrical and Computer Engineering from the University of Delaware, his Masters in Engineering Science/Computer Design from the Pennsylvania State University at Great Valley, and his BS in Engineering from the University of Texas at Austin. In addition to supercomputer R&D for IBM, he has 12 years of research experience in robotics and machine intelligence and will be the Laboratory Director for the new Elizabethtown College Robotics Lab. His main areas of teaching are digital and computer hardware design (from embedded systems to supercomputers). Dr. Wunderlich has many publications and has begun drafting a book on machine intelligence. He is also the primary faculty advisor and program coordinator for the Computer Engineering Program.
